### BOYS AT WACO GET MANY GIFTS

#### Lieut. Lytle Says Troops Are In Fine Spirits But Serious

Patrick Johnston, custodian at the city hall, has received the following letter from Lieut. A. J. Lytle at Waco, Tex., which will no doubt prove of interest to Rhinelander people:

HEADQUARTERS  
6th Brigade 37th Division,  
First Army Corps,  
Camp McArthur, Waco, Texas.  
December 19, 1917

Mr. Patrick Johnston,  
Chairman Board Directors,  
City Hall Corporation,  
Rhinelander, Wis.

My Dear Friend Pat et. al.:

Mrs. A. J. and Jim arrived a day and a half late but O. K. About the first holler she made before she forgot was to call my attention to the fact that we were to send you a postal card but, as there are none laying around handy, thought as I had a spare moment I would drop you a short letter instead.

I can't, of course, divulge any military information of any nature, whatsoever, at this time, so do not wonder at what will seem to be a dry letter.

I can say, however, that our time is getting shorter every day as regards our training in the states. The outfit has worked hard and are "fit." The U. S. inspectors, who have just finished an inspection of this camp, wired Washington that the 6th Brigade, which is ours, was the best trained and best disciplined in the U. S., including the regular army. So if we get nothing else out of this war, that alone will help to repay all concerned for the earnest efforts they have made to make it what we are considered today.

If it wasn't for censor I could write a whole lot that would interest you and the bunch at the city hall, but as it is, nothing doing.

We have here now quite a bunch of Rhinelander people, including the Mrs. and Jim, Mr. and Mrs. Redfield, Mrs. Ben Lewis, Mrs. Gibson, Mrs. Anderson, Mrs. Leadbetter, Mrs. Dr. Schiek, and Mrs. M. J. Chafee. This bunch is going to hold a sewing, here over at Company L's mess hall some day this week and will mend up all their clothes; they are in need of repair.

Company L had its first death today; one of the Beloit men that belongs was taken with appendicitis Friday, an acute case.

We have been having a Texas norther for the last ten days and at 18 above we suffered more from cold than a person would sitting on a roll way on the bank of a lake at 18 below up there in his shirt sleeves. Today it is great being 70 above; it is nothing to see a change of 50 degrees here in twelve hours at this time of the year.

Jim is having the time of his life; he gets out to camp at 7:00 in the morning, and as there are some 200 kitchens in camp and picking's good in that line, we don't see him until after supper to go back to town with Mrs. Lytle. He pulled a good one yesterday. I was out inspecting troops and saw what looked like a civilian riding my horse. When I got near to them, who should it be, but the "kid" out on my horse. He had told the man in charge of our picket line that I had said he could have it to ride on, and he was having his picture taken. As the camp is four miles long and 27,000 troops here, he has a poor chance of getting lonesome. I am afraid if I am gone for two years, I will find him as long as myself and as far as I am concerned, his (Continued on last page)

### SANTA IS GOOD TO 'PHONE GIRLS

Santa Claus was exceptionally good to the operators at the Rhinelander telephone exchange. Grateful business firms and other telephone users, in recognition of the efficient service given by the young ladies during the year, presented them with gifts of money, perfumes, handkerchiefs, candy, fruit and etc. Each member of the force received the same allotment and it would require a dray to haul all the packages.

It was a jolly Christmas for the operators and they extend their thanks to those who remembered them.

### POULTRY MEETING HERE SATURDAY

#### Merritt Seibole Will Talk To Chicken Men At The Court House

Next Saturday afternoon Merritt Seibole will be at the office of the County Representative at the court house to conduct a poultry meeting. Mr. Seibole is a successful poultry man from northern Michigan and understands our conditions thoroughly. He will be glad to answer any questions persons interested in poultry may have to ask him. The government is making a great effort to materially increase egg and poultry production during the next year. Poultry is the best substitute we have for meat and by increasing our supply we will be enabled to send millions of pounds of red meat across, which would otherwise be used at home. This is just another way for you to do your bit but at the same time you will be able to realize a nice profit by employing the best poultry methods. The meeting will begin at 1:30. The government is making an effort to increase the output of poultry raised by city people and anyone who keeps or can keep a few hens on the back lot should attend this meeting. Mr. Seibole will be at the court house all day Saturday and invites you to come and talk poultry with him.

### ROBBER ENTERS TROUT LAKE P. O.

Sheriff Jackson delivered to the United States marshal at Rhinelander last Saturday a lumberjack by the name of John Blonski, who was charged with robbing the store, express office and postoffice at Trout Lake Station a few days previous.

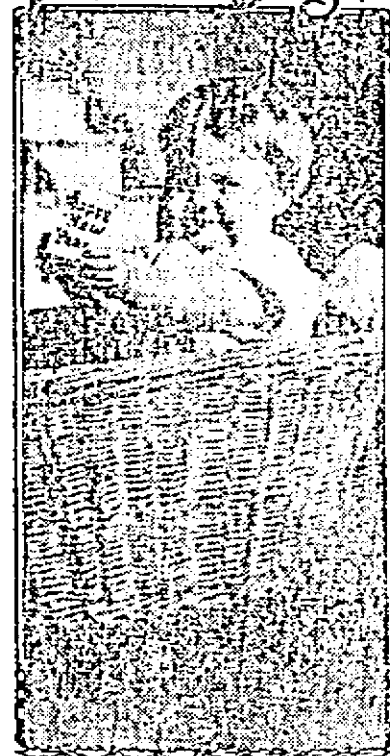

The store at Trout Lake is owned by Enoch Blaisdell, and during his absence one evening last week, Blonski broke in and robbed both the express and postal departments. Blaisdell captured him and turned him over to Sheriff Jackson. Blonski hailed from Ashland and had been working in logging camps near Mercer a few days before he drifted down to Trout Lake.

Eleven cents was all the money he secured out of the postoffice, sufficient to put him in Uncle Sam's clutches. He also swiped a suit of clothes and a couple of express packages, which were recovered.

#### RETURNS TO WAUSAU

M. Mathewson, manager of the Johnson Electric Shop in this city, has returned to his home in Wausau. He has been succeeded here by Mr. Ahlman. Mr. Mathewson made a large number of friends during his short residence in Rhinelander.

### May all the Year be Bright

### STILL CHANCE TO JOIN ARMY

Provost Marshal General Crowder has issued to governors new rules under which men of draft age may join the colors at their own request. They may enlist in the infantry, signal corps, medical corps and quartermaster's department, and may be inducted into service now only through their local board.

In order that technical students of draft age may complete their course and receive their degrees, Major General Black, chief of engineers of the army, announced that a plan had been agreed upon whereby the students may join in the enlisted reserve corps of the army until they are graduated.

### COURT RESUMES NEXT WEDNESDAY

On Wednesday afternoon, January 2, at 2:30 the resumed session of the fall term of Oneida county circuit court will convene in this city, according to notification received Wednesday by Clerk of Court E. C. Sturdevant from Judge A. H. Reid.

There will be no jurors called for this session but all cases for the court ready for disposal will be heard.

Lieut. C. A. Richards, who is stationed at Fort Riley, Kansas, is spending the week with his family.

## FIRST NEW YEAR'S WEDDING

To the first couple married in Rhinelander after 12 o'clock, midnight, on December 31, or, to be more definite, the first couple married in Rhinelander in 1918, the New North will give a present of the paper for one year, if they will report promptly the wedding to the New North by telephone or otherwise.

### WOODRUFF HAS \$4,000 FIRE LOSS

Fire destroyed the meat market of Henry Beque in Woodruff Wednesday morning. An overheated stove is believed to have been responsible for the blaze. The loss is estimated at about \$4,000 with insurance at \$1,800. Mr. Beque was secretary of the Woodruff lodge of Odd Fellows and it is said that books and records of the lodge kept in the building, were lost.

A pet dog owned by Mr. Beque was removed from the burning building but as soon as rescued ran back into the fire and was burned.

Mr. Beque was in Three Lakes at the time of the fire. This was the only meat market in Woodruff. He will probably reengage in business there.

### LOAN ASS'N. HOLDS ANNUAL MEETING

#### Election Of Officers Takes Place Wednesday Night At City Hall

The annual meeting of the stockholders of the Rhinelander Building and Loan Association was held last evening at the City Hall.

Directors were elected, for two years, Morris McRae; for three years, John Moon, A. E. Weesner and Mrs. A. W. Shelton.

The report of the auditing committee on the business of the year 1917 was read and a copy of the same will be mailed to each member of the Association the first of the year.

Following the annual meeting of the stockholders, the annual meeting of the Board of Directors was held. The officers elected were, President, Arthur Taylor; Vice President, Chas. F. Barnes; Secretary, Mrs. A. W. Shelton; Treasurer, M. H. Raymond.

The books of the Association will be open Wednesday morning, January second at nine o'clock. The eighteenth series of stock will be issued but for the present only for loaning purposes.

### CHRISTMAS MAIL BREAKS RECORD

#### Nothing Like It In History Of Office Says Postmaster Stapleton

Christmas business at the Rhinelander postoffice broke all records "Nothing like it before in the history of the office," said Postmaster Stapleton in speaking of the enormous holiday mail. "Every member of the regular force and extra hands were kept on the jump every hour of the day and a couple of nights we worked until nearly morning. However, we handled everything in fine shape, regardless of the jam, and delivered nearly every Christmas package, letter and card on time. The outgoing parcel post business this year was very heavy. One night it was necessary to bring back twenty sacks of this mail from the train because the mail car was too crowded to hold them. Our quarters in the postoffice are so narrow that it is impossible for many people to work there without running into each other. In this respect we are handicapped as it prevents us from engaging all the extra help necessary during rush time."

Misses Doll and Helen Stapleton, who have been attending St. Francis' school, Dubuque, Ia., arrived home Saturday.

### CHRISTMAS TRADE HEAVY IN CITY

#### Rhinelander Merchants Declare Holiday Patronage Largest In Years

Rhinelander merchants express themselves as very well pleased with this year's holiday patronage. Several dealers declared that trade with them was the largest they have ever had and many said it was as brisk as any previous holiday season. There appeared to be a heavy demand for the more serviceable gifts, although dealers in all lines report substantial sales. Money was plentiful and the majority of shoppers paid cash for their purchases. The amount of goods bought on credit was much smaller than usual at Christmas time.

Friday and Saturday of last week and Monday of this week proved record smashing business days in all the stores. The fact that Thursday last was pay day added to the holiday rush and boosted the amount of cash sales. Extra clerks were employed in all the stores. At one store the regular force was increased by twelve on Saturday and Monday.

"Christmas trade was the best I have ever seen during the fifteen years I have been in business in Rhinelander," said one merchant.

"December was a mighty busy month with us all through and the week before Christmas was exceptionally good," remarked a dry goods dealer.

"Didn't look for any great trade in jewelry this year," said a jewelry man, "but it certainly surprised me the way the people bought. Cost didn't seem to make much difference and some of my highest priced articles met with quick sales."

Other cities in northern Wisconsin, including Antigo, Wausau, Merrill, Ashland and Ladysmith report splendid holiday business. From a trade standpoint the Christmas of 1917 was wholly satisfactory.

### MISS KALOUNER WEDS RANCHMAN

Miss Anne Kalouner, who formerly attended high school in this city, was married Christmas afternoon to Mr. William John Greig of Manton, Alberta, Can. The wedding took place in the bride's home in Antigo and was performed by Rev. S. J. Tink of the M. E. church. The double ring service was used.

The bride after graduating from the high school here, attended Milwaukee normal and later taught in the schools of Calumet, Mich. For the last three years she has been a teacher in the Antigo school for the deaf.

Mr. Greig is a ranch owner in Alberta and is said to be a very substantial citizen there.

#### CORD WAS SHORT

In Judge Smith's court Monday Herman Felke was found guilty of selling a short measure cord of wood and paid a fine of \$15 and costs.

#### ARRIVES FROM TEXAS

Lieut. Ed. Swedberg is visiting his parents, Mr. and Mrs. John Swedberg. Lieut. Swedberg was recently promoted from a corporal and is stationed in Fort Logan, Texas. He is to receive a forty days course of instruction at the Four Wheel Drive Auto plant in Clintonville.

Misses Gleason and Katherine Seibel went to Superior Wednesday to attend the Gleason-Jennings wedding.

Come, open your door! There's a friend  
waiting near

Who is anxious  
to bid you a  
happy New  
Year.

He rings at the  
door, and he's  
ready to shout:  
"The New Year  
is in, and the  
old year is  
out,  
And long may  
you prosper  
and long may  
you smile."

May happiness dwell with you all of  
the while."

Come, run to the door! There's a friend  
waiting there.

Go bid him to en-  
ter and draw  
up his chair.

Come, fill up his  
wineglass and  
pass him the  
cake.

For fewer and  
fewer are calls  
that friends  
make.

Come, shout in  
reply to his  
message of  
cheer.

"Long life to you, friend, and a happy  
New year!"

"A happy New Year and a wealth of  
success."

May love and  
prosperity never

**Some New  
Year Customs**

THE sole record of the observance  
of the New Year by the pilgrims  
in the new world, named New  
England, was most prosaic, most brief.  
"We went to work betimes," said Alice  
Morse Earle, the famous investigator  
of old-time American customs. Many  
of the good Puritan ministers thought  
the celebration or even notice of the  
day in any way savored of improper  
and unchristian reverence for the  
heathen god Janus. Yet they came  
from a land where New Year was sec-  
ond in importance and in domestic ob-  
servance only to Christmas. Through-  
out every English county New Year's  
eve was always celebrated. In many  
it was called by the pretty name of  
Singing Eve, from the custom which  
obtained of singing the last of the  
Christmas carols at that time.

In Scotland the last day of the year  
was called by the uglier name of Hog-  
manay, a name of unknown and in-  
explicable derivation, and in Scotland  
it was regarded as the most popular  
of all the "draft days," as the Christ-  
mas holidays were termed. Scotch  
children of the poorer class in small  
towns still ask on that day from door  
to door at the house of wealthier fam-  
ilies for a dole of oat bread, calling out  
"Hogmanay" or some of the local times  
which are given in Chambers' "Popu-  
lar Histories of Scotland," such as:

Hogmanay,  
Trotter!

Give us of your white bread  
And none of your gray!

They also ask for cheese, which they  
call "hog money," and Brand's "Popu-  
lar Antiquities" gives this begging  
rime used by Scotch children:

Get up, gude wife, and linnie awer!  
Dead cats and cheese while ye are here.  
For the time will come when ye'll be dead  
And neither need your cheese nor bread.

As the children on these forays are  
swathed in great sheets formed into a  
deep bag or pouch to carry the oat-  
cake, they form quite a mummified and  
fantastic appearance.

Little Skeptic.

Caroline and Tom were five and two  
years old. An expedition to a park  
had been planned when father brought  
home to Tom a picture book of wild  
beasts. Caroline was delighted. "Be-  
cause, mamma. If we did not show  
pictures of the animals fast to Tom  
he might see them in the park and  
say 'I don't believe.'"

Material for Wooden Shoes.

For the style of wooden shoes called  
sabots, basswood is mostly used, but  
willow is preferred. Poplar, birch, walnut  
and beech are also used to some  
extent in their manufacture.

**THREE LAKES DEPARTMENT**

Mrs. E. Kloese who spent several  
weeks at Chicago, returned home  
on Saturday.

Misses Lillian Anderson, Ethel  
Anderson are spending their holi-  
day season at home.

school at Oshkosh is home making  
things lively during her vacation.  
Clara and Esther Uhl came home  
to eat their Christmas dinner.

Miss Ulva Bennett, who is a stu-  
dent at the Shawano normal came  
home for the holiday season. She  
enjoys her school work very much  
and will shortly be fitted and ready  
to accept a position in that line.

Bernice Donnelly-Kuney, who  
holds a position as instructor at the  
state university, Madison, is home  
to spend her Christmas vacation.  
She enjoys her work at the univer-  
sity very much.

Bessie Connors who manages a  
school at Trout Lake is among the  
young folks at home. She likes her  
school very much and is all taken  
up with her Indian pupils.

Miss Olga Johnson is home for  
Christmas.

Henry Gerski has been taken to  
a Waukesha sanatorium.

Fred Sallor accompanied by his  
sister, Margaret, came down from  
Eagle River on Saturday to call on  
relatives and friends. Fred is one  
of the soldier boys who was lucky  
enough and be granted a holiday  
leave of absence. Fred makes a  
good appearance in his uniform.

Mrs. V. Thurber has gone to An-  
tigo for a visit.

Mr. and Mrs. Thompson come  
down from Fuller, Mich., to enjoy  
a turkey dinner with their children  
Mr. and Mrs. J. A. McDonald of Lake

Breeze. Miss Mae McDonald of Chi-  
cago is also a visitor at Lake

Mrs. Puls, mother of Herman  
Puls of the Deer Lodge Resort, was  
found dead at her home last Sat-  
urday morning. She was 83 years  
old. The remains were shipped to  
Chicago her old home on Monday.

Mr. Puls and Mrs. Rotter accom-  
panied the remains to Chicago.

Undertaker Gaffney of Eagle River  
was in town on Saturday.

Miss Dorothy Miener came here  
from Wausau to spend Christmas  
with friends.

Miss Helen Pickett is spending  
her vacation at Spencer.

The Christmas entertainment given  
under the auspices of our vil-  
lage school at the Woodman hall  
last Friday night was a most de-  
cided success. The program was  
well arranged and our local teach-  
ers deserve much credit for the un-  
dertaking. There was just one lit-  
tle drawback and that was the  
hall management did not furnish the  
light that the entertainment and  
public gathering deserved. Get busy  
and install a Delco system.

A Church With a Welcome

This church does not exist merely  
for itself, but for the community in  
the midst of which God has placed  
it. We trust that all persons finding  
their way here will come to know  
it as a house of worship; a school  
for learners; a field for workers; a  
shelter for the weak; and a citadel  
for the strong.

Rec, William Wilson, Pastor.

The program at the school Fri-  
day afternoon proved to be suc-  
cessful.

Edith Carlson of Eagle River  
was in town Monday.

Minnie Brandle of Rhinelander is  
home for a few days.

A program was given in Dist. No.  
2 at the school house, by the teach-  
er Miss Lagon, Friday night.

The school house was decorated beau-  
tifully with green and red. A large  
stage was built, and a big chimney.  
The program commenced at 8:15  
o'clock and lasted three hours. Thrity  
ty some different numbers made up  
the program. One pretty feature was  
a patriotic play with wounded sol-  
diers and two Red Cross nurses.

At 11:50 Santa Claus arrived with  
his bag of candy and apples. A  
tree was trimmed and touched the  
ceiling. It was laden with presents  
for each child at school and moth-  
ers and fathers. During the fall the  
teacher taught sewing and boys and  
girls took part in the work. In this  
way each child made a present for

their parents. Young and old were  
remembered. Miss Lagon deserves  
much credit for all of her work.

Emma Galtum of Three Lakes  
was in town Saturday.

A masked ball will be given at

## Catarrhal Cough

Mr. W. S. Brown, R. F. D. No. 4, Box 52, Rogersville, Tennessee, writes: "I feel it my duty to recommend Peruna to all sufferers of catarrh of the throat. In the year 1909, I took a severe case of the influenza. I then took a bad cough. I had taken all kinds of cough remedies but got no relief. I then decided to try Peruna. I used five bottles. After taking five bottles my cough stopped and my catarrh was cured. My average weight was 115 and now I weigh 118 1/2. Any one suffering with catarrh in any form I will advise them to take Peruna."

Any one Suffering with Catarrh in Any form I will Advise them To take Peruna

## How It Looked to Jimmie.

Jimmie's older sister has a beau. The beau has a touring car. One day Jimmie was playing in the front yard and the beau drove up in a roadster instead of his touring car. Jimmie ran into the house, calling: "Oh, Mamma, come quick! Mr. Parker has come, and he only brought the front seat."

## MINOCQUA

(Minocqua Times)

One of the smaller sons of Mr. and Mrs. Chas. Smack was severely injured Monday when he was kicked in the face by a horse, receiving a broken nose, a broken cheek bone and a broken eye socket. The boy was taken to the Rhinelander hospital where hopes for his recovery are entertained. The accident occurred while the boy was following a horse led by an older brother.

Edna Cameron, infant daughter of Mr. and Mrs. Cord Cameron of Hazelhurst, died Monday, December 17, after a brief sickness of four days. The child was born July 7, 1915. Interment was made in the Hazelhurst cemetery.

James Baker of Rhinelander, Ira Smith of Cassian, Chris. Olson of Woodruff and Road Commissioner Frank Parker of Rhinelander inspected the fill recently made at the Fish Hatchery.

Last Thursday evening the sophomores of the local high school gave a farewell party in honor of Miss Jost, 1st assistant of the high school faculty, at the home of Mrs. P. B. Bolger. The general program of the evening consisted of fun-making. At eleven o'clock the faculty and young folks treated themselves to a tasty supper. A coffee perculator was presented to the guest of honor.

After receiving advice from proper authority, S. O. Johnson killed a stray horse which was found in a very pitiful condition, the animal having roamed about without proper food or place for shelter for several weeks. Mr. Johnson sold the horse's hide for five dollars, and gave the five dollars thusly obtained to the Red Cross for the benefit of our soldier boys.

## TIME TO ACT

Don't Wait for the Fatal Stages of Kidney Illness. Profit By Rhinelander People's Experience. Occasional attacks of backache, irregular urination, headaches, and dizzy spells, are frequent symptoms of kidney disorders. It's an error to neglect these ills. The attacks may pass off for a time but generally return with greater intensity. Don't delay a minute. Begin taking Doan's Kidney Pills, and keep up their use until the desired results are obtained. Good work in Rhinelander proves the effectiveness of this great kidney remedy.

Mrs. J. Standinger, 727 Arbutus St., Rhinelander, says: "I was bothered by kidney weakness and once I had to call in a physician. Finally I had the good fortune to learn of Doan's Kidney Pills and they soon gave me relief. After I took a couple of boxes, my kidneys became normal and I had no further need of a kidney medicine until two years ago. Then trouble with my kidneys set in again and they acted too often. I again took Doan's Kidney Pills and obtained quick relief."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Standinger had. Foster-Milburn Co., Props., Buffalo, N. Y.

## DRAFTED

He closed his cobbler shop last night,

He's left his stool to go and fight, Joe Petrobon!

Customers came to say good-bye, Each with a soft light in his eye,

Some with a smile, the rest a sigh, Joe Petrobon!

He felt so queer when he was drawn,

He is not built of husk and brawn, Joe Petrobon!

To leave the little corner shop,

Business and pleasure, friends to drop—

Ah, yes, he found it hard to stop! Joe Petrobon!

And yet, now when it's time to start,

We find him set to do his part, Joe Petrobon!

Italia's skies, they say, are blue,

Under them hearts grow strong and true,

They give us loyal lads like you, Joe Petrobon!

He closed his cobbler shop last night,

Locked is the place, the windows tight,

Joe Petrobon!

His sign still hangs above the door,

He'll find it there, just as before,

When home again he comes from war, Joe Petrobon!

## 21 STATES NOW WET

Wet states now target for final prohibition:

CALIFORNIA  
CONNECTICUT  
DELAWARE  
FLORIDA  
ILLINOIS  
KENTUCKY  
LOUISIANA  
MARYLAND  
MASSACHUSETTS  
MINNESOTA  
MISSOURI  
NEVADA  
NEW JERSEY  
NEW YORK  
OHIO  
PENNSYLVANIA  
RHODE ISLAND  
TEXAS  
VERMONT  
WISCONSIN  
WYOMING

Thirteen of these can prevent the prohibition amendment from making the United States a dry nation.

## Grinding Wheels.

In the manufacture of the modern automobile the grinding wheel plays an important part. In one typical plant, for instance, the grinding wheel stock room contains an elaborate system of racks for the wheels, and the statement is made that there are now in use 54,911 grinding wheels.

## COW RELISHES ROUGH FEEDS

Animal Possessed of Large, Roomy Digestive Tract That Is Built for Handling Bulky Feed.

Unlike the hog, the cow has a large roomy digestive tract that is built for the handling of rough feeds. The cow digests her feed to best advantage when her ration is bulky, as the bulky parts of the feed keep the small particles of grain apart and thus allow them to be thoroughly acted on by the digestive juices. The hay and stlage should not constitute all the bulk of the ration, as part of it can profitably be supplied by such feeds as corn and cob meal, ground oats, wheat bran and distillers' dried grains.—Iowa Circular 34.

## RINGING SELF-SUCKING COW

One Plan Is to Put Brass Ring in Animal's Nose—Gets Ring Instead of Her Teat.

A number of methods of preventing a cow from sucking herself have been suggested, among them being the one of putting a brass ring in the cow's nose large enough that when she opens her mouth to take hold of the teat she will get the ring. If a large ring is used two small ones can be linked into the one that goes in the nose which will answer the same purpose.

## FARMER WHO WILL SUCCEED

Profit Over High Cost of Labor and Feed for Meat, Milk, Dairy and Poultry Products.

Advancing prices for meat, milk, dairy and poultry products will bring a profit over the high cost of feed and labor, and the farmer who has kept a good stock of breeding animals is pretty sure to receive handsome returns.

"For the cause that lacks assistance;  
For the wrong that needs resistance;  
For the future in the distance  
And the good that we can do."

The last issue of the Vilas county News, one of the best weeklies on our exchange desk, came out in special form and was called the Big News Lake Edition. It was dedicated to the boys from Vilas county now in Uncle Sam's service. The paper contained a double page map of the lake region of Vilas and parts of adjoining counties which is valuable for reference. An edition of this kind is a great advertisement for Lake Superior and vicinity. The readers there should feel grateful to the Vilas County News and its enterprising publisher, D. C. Menefee.

Some of the flags floating from public buildings and business places in this city look as though they are relics from the battle of Gettysburg.

The Red Cross campaign has been continued until New Year's eve. The few here who have not joined this worthy organization still have a chance to do so.

## FRED H. JOHNSON DIES IN PASADENA

Fred H. Johnson, a former Rhinelander lumberman, is dead in Pasadena, Cal., where the family has resided for several years. A telegram conveying the news of Mr. Johnson's death was received in this city Wednesday morning by Dr. F. L. Hinman, at one time a business partner of deceased. The message came from Miss Louise Johnson, who stated that her father's death was due to liver and heart trouble and that the funeral would be held in Pasadena, Thursday. The family address in that city is 530 Colton Avenue.

For a number of years Mr. Johnson was numbered among the successful lumbermen of Wisconsin. As a member of the firm of Johnson and Hinman he operated a saw mill in this city. He was a progressive citizen, a loyal supporter of every movement for the community welfare and commanded the sincere esteem of his fellow men. His death is a source of sorrow to his many friends in this city. Sympathy goes out to the bereaved family.

### Found a Problem.

Peet Farmer (reading)—It says "to keep woodchucks from eating the tender young vines, spray them with paris green." That is plain enough, but how can I catch the woodchucks in order to do it?

### All Have Faults.

Nothing will make us so charitable and tender to the faults of others as by self-examination thoroughly to know our own.—Fenelon.

### Name Fits the Tree.

The largest tree in Japan has a name which seems to fit its size—cedar-phyllura japonicum. In its native land this tree grows nearly 100 feet high and produces from the crown a cluster of stems with a total circumference of 50 feet or more. A specimen of this tree now growing in the arboretum is about thirty years old and has proved perfectly hardy. It is very attractive in the autumn, when the leaves change their color to a clear yellow.

### Peruvian Bread.

Native bread today in Persia is said to be very little different from that of 1000 years ago. The oven is built of smooth masonry in the ground and many of them have been used for a century. The dough is formed into thin sheets about a foot long and two feet wide and pressed quickly against the side of the oven. It takes in a few minutes.

### Saving the Eyes.

The eyes were made to use without a doubt. So were the hands and feet and all can be blessed and become sources of pain forever. A lifetime of just ordinary vision, just seeing what goes on about us, is about all we can expect from a pair of normal eyes. Added strain like free sewing, too much reading and poor light will wear them up so much sooner. War-servicers have to sacrifice many things, including eyes, but for a definite work of vision there is no excuse.

### Labor and the Matinee.

"Any man who goes to matinees lays himself open to the suspicion of not being a hard worker." "Nonsense," replied Mr. Twaddle. "The hardest work I ever did in my life was escorting my wife to an afternoon matinee."—Birmingham Age-Herald.

### First to Smoke Tobacco.

Tradition ascribes tobacco and its use to many things. Some say it was Sir Walter Raleigh who introduced it in the early seventeenth century, but the tiny village of Henscliffe, Somersetshire, claims the distinction which cannot be disputed and one can find many champions of that cause in the immediate vicinity. The entire village consists of one house, known as the "Old Ash" or "Virginia Inn," and here, it is said, tobacco was smoked for the first time.

### Freezing Did Not Kill.

Interesting experiments have been made by two French scientists, who placed a number of caterpillars in test tubes or metal boxes in a refrigerating mixture of ice and salt at a temperature varying between 15 and 20 degrees centigrade. The same caterpillars were frozen six times in the space of a month, and they always came back to life, but at each new freezing operation their movements and reactions to mechanical excitation became slower.

## IDEALS FOR THE NEW YEAR

(By Dr. William DeWitt Hyde)

To weigh the material in the scales of the personal, and measure life by the standard of love;

To prize health as contagious happiness, wealth as potential service, reputation as latent influence, learning for the light it can shed, power for the help it can give, station for the good it can do;

To choose in each case what is good on the whole, and accept cheerfully incidental evils involved;

To put my whole self into all that I do and indulge no single desire, at the expense of myself as a whole;

To crowd out fear by devotion to duty, and see present and future as one; to treat others as I would be treated, and myself as I would my best friend;

To lend no oil to the foolish, but to let my light shine freely for all;

To make no gain by another's loss, and buy no pleasure with another's pain;

To harbor no thought of another which I would be unwilling that others should know;

To say nothing unkind to amuse myself, and nothing false to please others;

To take no pride in weaker men's failings, and bear no malice toward those who do wrong;

To pity the selfish no less than the poor, the proud as much as the outcast and the cruel even more than the oppressed;

To worship God in all that is good and true and beautiful;

To serve Christ wherever a sad heart can be made happy or a wrong will set right; and to recognize God's coming kingdom in every institution and person that helps men to love one another.

## The Oneida Building Company

is the only concern ever organized in Rhinelander to build and sell houses to workmen at a low price and on a low cash payment.

After the first payment they allow the buyer to pay about the same as his rent would be. They furnish modern cottages, bungalow style, with hardwood floors, water and sink, drain pipe, electric wired, cellar and stone foundation. These houses have four rooms below and two, and some of them three, upstairs.

They have built and sold five houses, and have two nearly completed that are for sale.

River street will soon be called Riverside Drive, these houses are changing the appearance of the neighborhood so much. The west side is the only part of the city where any expansion can be made and let the people be near their work and the mills.

### Tip to Poets.

It might not be idle to observe that "khaki" does not lend itself to poetry as well as some more euphonious words, notes the Indianapolis News. Its uses are more utilitarian than decorative. In a uniform it is inspiring, but in cold type it conveys no such impression. War poets, before setting out to woo the muse, should consider the difficulties of "khaki." If by so doing the overflowing current of war poetry could be somewhat stemmed a great service would be done a troubled nation.

### Should Conserve Health.

Health is the first requisite for a useful life. One may get along without it if there is money to pay for doctors, medicines and assistance—even then an unnecessary invalid is regarded as a member of the earth. The ordinary person needs good health to play a satisfactory part in life and should do everything possible to secure and maintain it through all the years. With the best of intentions and care as well it is not always possible to evade illness but there is a better chance than if no attempt to avoid it had been made.

### Saw Little Cowlets.

It was Anita's first trip to the country. She was particularly interested in the "mother and baby cows." On her return to the city she was telling one of her playmates all about the farm "And," said she, "I saw lots of cows and the cutest little cowlets."

### POMONA GRANGE PROGRAM

Western Pomona Grange will meet at the Odd Fellows Hall in Rhinelander New Years day.

The meeting will be called at 10:30 a. m. by County Master J. F. Wilde.

Aside from the election and installation of officers which will take place in the afternoon and evening respectively, the following topics will be discussed:

Commercial Fertilizer with Potatoes, P. N. Davis.  
Raising Winter Wheat, Wm. Gilley.

Raising Spring Wheat, J. O. Bernstein.

Also essay by Sister Clark.

The time is too short to arrange a full program.

S. S. McINTOSH, Lecturer.

### Health Preparedness.

Uncleanliness means disease and disaster, and since disaster is not what we are looking for, why not pay more attention to the demands of good sanitation?

### Little Habits Count.

Great business men get the habit of being on time. It is they who know best the value of time and the importance of saving it by being prompt. Yet it may be hard to acquire the fixed habit of always being prompt, but it can be done and it is worth while to do it. In the commonest things everyone is influenced by little habits that we seldom suspect.—Exchange.

Will Pecor and family of Tripoli visited relatives in the city Christmas.

Miss Doll Stapleton has accepted a position with the Brown Land and Lumber company.

Miss Shannon of the Markham and May company spent Christmas in Milwaukee.

Oysters Must Have Salt.

It has been found that oysters can only live in water that contains at least 37 parts of salt to every 1,000 parts of water.

### English, You Know.

"An' so you're goin' to teach French at the school, Mr. Canewell?" said the grocer's wife. "Well, it's as well that some folk can teach people, for I often think it must be shockin' difficult for furriers who come here. For instance, take the word 'air' for example. There's the 'air on our wads, the hair of the hatmosphere, the 'are they 'unts, an' air you quite well? Yes, it must be awful confusin'."

### Shoots Money Into Bank.

For the thrifty soul with sportsman-like tendencies a novel savings bank has recently been invented. By a clever arrangement of the bank and a small gun on a metal stand you are able to shoot your money into safe keeping. The bank is concealed by a targetlike arrangement with a slot in the bull's eye. The nickel, dime or quarter is placed in the gun; the trigger is pulled and the coin flies into the bank.

### To Destroy Rats.

Here is a suggestion for a simple, inexpensive, sure mode of destruction for rodents: Take an ordinary cork from a bottle, slice it to the thickness of a dime, smear it with a piece of lard, fry it to a brown color and put a little salt on it. Then you have rat bacon. A rat will chew and try to swallow it, but that is as far as he gets. The cork sticks in his throat and he cannot get it lower or out. He will run for water to wash it down. That's the important part. He dies outside the house.

## WARDENS POSSESS GOOD COLLECTION

Game Wardens H. W. McKenzie and J. H. Boomer have in their possession one of the largest gatherings of illegally trapped animal furs and skins that have been collected in this vicinity for many years says the Antigo Journal. The wardens have seized the skins of eight red deer shot by "shorty" Fournier, Buller's Lake resort out of season. These skins have been excellently cared for, according to taxidermists, and were ready for mounting purposes when confiscated. The head and claws of each animal were saved with the skins also. Fournier was later fined \$75 for violating a game law of the statutes of Wisconsin.

In the exhibit the wardens have also six gray deer furs that were the possession of parties in Vilas and Oneida counties. They have also seized two large hoop nets that were set when found, four other nets and other fishing utensils.

Many trout, live eggs of foot traps and other contrivances of all descriptions have been gathered, including a large head light used for "shining deer", taken from a party who plead guilty of killing three deer at night.

A large doe and numbers of the finest breeds of hunting dogs were seized this season.

## PRESENT WATCH TO REV. WILSON

On Sunday crowded congregations greeted the pastor of the Methodist church. Christmas sermons were preached at both the morning and evening services. At the close of the morning service a reception was held and nineteen new members were received.

On Christmas eve the children of the Sunday School rendered their Christmas program to an appreciative audience and prizes were awarded to the children for their regular attendance. The officers and teachers desire to thank the parents and friends for their help and hearty co-operation, without which the work of the Sunday School would not have been as successful. After the presentation of the prizes to the children, Dr. H. J. Westgate made a pleasing speech, and on behalf of the members and friends presented a beautiful gold watch to the pastor, Rev. William Wilson, as a token of appreciation of his work during the year.

## 175 COUPLES AT CHRISTMAS BALL

Approximately 175 couples enjoyed the hospitality of the paper makers at their annual Christmas dance Tuesday night at the Armory. In a social and financial way the dance was the most successful ever given by the Local. Carlin's orchestra received many compliments on the excellent quality of the music. Soldiers and sailors in the city on furlough were admitted to the hall without charge. As entertainers the paper makers cannot be outclassed.

Trustee 18 months, Chas. Nicholson.

Auditing Committee, John Swedberg, John Sanker, Chas. Nicholson, Andrew Wick, Andor Larson.

### Deep Breathing.

The secret of voice-production has been lost for more than a hundred years, but it will be found directly and teachers understand how to use the lower abdominal muscles for the raising of the whole of the internal organs of the body and thus causing a steady breath pressure, which is not only the foundation of singing but also the secret of health. Persons threatened with tuberculosis should investigate deep breathing.—Exchange.

### Appropriate Howl.

A homeless dog strayed into a Pittsfield (Mass.) theater and started to howl just as the movie film read: "Let the dogs of war howl!"

### CHAMBERLAIN'S TABLETS

Chamberlain's Tablets are in-  
tended especially for stomach trou-  
bles, biliousness and constipation,  
and have met with much success in  
the treatment of those diseases.  
People who have suffered for years  
with stomach trouble and have  
been unable to obtain any perma-  
nent relief, have been completely  
cured by the use of these tablets.  
Chamberlain's Tablets are also of  
great value for biliousness. Chron-  
ic constipation may be permanently  
cured by taking Chamberlain's Tab-  
lets and observing the plain print-  
ed directions with each bottle.

### HOW TO PREVENT CROUP

In a child that is subject to at-  
tacks of croup, the first indication  
of the disease is hoarseness. Give  
Chamberlain's Cough Remedy as  
soon as the child becomes hoarse  
and the attack may be warded off  
and all danger and anxiety avoid-  
ed.

### MUST ADMIT STORAGE

"A misunderstanding has arisen  
out of a story circulated recently,"  
declared Dairy and Food Commis-  
sioner George Weigle at Madison.  
"The story gave the impression that  
none but wholesalers need-  
ed to display their signs declaring  
articles sold to be from cold stor-  
age. This is entirely incorrect. Re-  
tail merchants must exhibit such

signs in connection with the article,  
or, as in the case of butter  
and smaller products, if the article it-  
self is out of sight of a customer,  
the sign must be exhibited on the  
walls of the store."

NO SUGAR FAMINE  
IN RHINELANDER

Rhinelanders housewives, who are alarmed over the report that there is going to be a sugar famine, when it will be impossible to purchase sugar in any quantity, should dis- tetch their fears. While for the last few weeks grocery men here have been limiting the sale of sugar to twenty-five cents worth to a cus- tomer, there is no danger that the supply will run out entirely.

Earl D. Babst, who is at the head of the American Refinery, in tes- tifying before the senate investi- gating committee said that there is going to be a plentiful supply of sugar the coming year and that by placing a limit on domestic consump- tion would result in a larger sur- plus than the tonnage shortage would permit to be shipped abroad. Half of the world's sugar crop, out- side of the central powers, is pro- duced by the United States, its ter-

ritories and Cuba, and if properly distributed this production is more than enough to meet domestic de- mands as well as supply all that can be shipped to the allies.

CLEANS CHIMNEYS

Carbonoid, a new preparation for cleaning chimneys and eliminating the danger of chimney fires, is recom- mended by Chief J. D. Cole, of the Rhineland fire department. Within the last few weeks carbon- oid has been used in many Rhine- lander homes with very satisfacto- ry results. The preparations cleans chimney and pipes of every parti- cle of soot.

"If folks would use carbonoid there would be very few chimney fires," said a man who has tried the preparation. "It is the best thing for cleaning chimneys I have ever used."

Carbonoid comes in two pound containers and can be purchased from the fire department. The price is 50 cents.

May the New Year Be a Bright and Prosperous One for All

A Calendar Party Is  
Jolly at New Year's

A CALENDAR party makes a novel and informal entertainment for the evening of New Year's day or any night during holiday week. It is a very pretty idea to make the invitations look as much like the first page of one of the single leaf calendars as possible. Paste on a sheet of white note paper a leaflet from the calendar bearing the date on which the party is to be held. Below this write:

This is an invitation hearty  
To my little calendar party.  
Next Monday night at eight o'clock  
Bring all the wits you have in stock.  
Be sure to come whatever the weather.  
We'll have a jolly time together.

When the guests have arrived an- nounce to the assembled company that they have been entered as contestants in a calendar race. To prepare for it take one of the single leaf calendars which you can buy anywhere for a few cents. This contains 365 leaves, or one for every day in the year. Tear the leaflets from the cover and hide them all over the house or apartment, in the living room, hall or spare bedroom or wherever you want your guests to go. At a given signal, the blowing of a whistle or the ringing of a bell, every- body starts on a search for the leaflets. This can be continued for as long or as short a time as desired.

The first prize should be given to the person who has collected the greatest number of days represented by the calendar leaves. This can be an orna- mental calendar of some sort. The second prize should go to the person who has the most calendar leaves for any one month, but it is forbidden for play- ers to swap leaves to accomplish this. A little diary makes a good second prize.

There should be special prizes for the people who find the dates of the most holidays—Christmas, New Year's, Washington's birthday, Lincoln's birth- day, Memorial day, Fourth of July, Labor day (the first Monday in Sep- tember) and Thanksgiving day (the last Thursday in November). A differ- ent prize should be given to the holder of each holiday date and should be something appropriate to the occasion. For instance, the prize for finding De- cember 25 should be a tiny figure of Santa Claus or a small stocking made of tulle or net and filled with tiny candies. New Year's day prize could have a small red blotter decorated with the figure of Father Time cut from a card.

After the prizes have been awarded there is usually time before supper for the date game. To play this it is nec- essary for the hostess to prepare in advance a number of slips on which certain well-known historic dates have been written—for example, 1492, 1606, 1776, 1914, etc. These, of course, stand for the discovery of America by Co- lumbus, the battle of Hastings (Nor- man conquest of England), the Dec- laration of Independence of the Amer- ican colonies and the beginning of the great world war. Each player draws a slip, reads it aloud, and whoever first names the event that makes it famous receives the slip.—New York World.

NORWAY PRICES  
HIGHER THAN U. S.

"Some people think prices are high in the United States as the result of the war. They should live in Norway, then they would real- ize what high prices are. The bur- den of war has hit Norway harder than it has the United States."

So stated Miss Elfi Hannevig, a second year student in the short course of agriculture at the Uni- versity of Wisconsin. She thought more of what might be accomplish- ed by a thorough education in agri- culture than she feared the sub- marine district, so she left Norway on Oct. 12 to come to Wisconsin to attend the university.

This is her second year at Wis- consin. Last year she came to vis- it her brother, who is in business in New York. On the boat over she learned of the University of Wis- consin and although her brother wanted her to attend Cornell, noth- ing would do until she got to Wis- consin.

"You see I liked the studies here last year," commented Miss Han- nevig, as she discussed her work. "That is the reason I am back again. I am not so anxious about the di- ploma as I am about the knowledge I gain here."

Miss Hannevig is one of the most striking co-eds at the univer- sity. When her father gave her a farm a few years ago she vowed that it would not be converted into money. It would be farmed by her and under her direction.

"I have about 150 acres of land about 70 miles from Christiania", continued Miss Hannevig. "I have a fine orchard, growing apples, cher- ries and other small fruits. The remainder of the farm has been plan- ted to small grains and potatoes. Some of the small grains do not do so well, but because of the war and the necessity of additional foods, these had to be grown. I have a fine crop of potatoes this year."

"VAMP" MARRIAGES  
BARRED AT WACO

Camp MacArthur, Waco, Texas. "Vampire marriages" have been sufficiently common around vari- ous army camps to attract the at- tention of commanding officers, and as a result no officer or enlisted man in the Thirty-second division may get married without obtaining the permission of his regimental com- mander.

According to information carried to headquarters, certain women have congregated near camps, a few, it is said, with the deliberate purpose of wedding some young soldier and having herself made his beneficiary, both as to compensation and under the insurance law. In several in- stances, it has been proved, accord- ing to reports, that women have married at more than one camp un- der assumed names.

To marry even a private under the present circumstances, assures any woman of an income of at least \$40 a month. The husband must allot at least half of his pay and the government makes up the balance. Besides, the soldier usual- ly takes out the full \$10,000 in in- surance, and in the event that he is killed she would receive \$57.50 a month for twenty years, in addi- tion to the compensation given a widow without children, which would mean an additional \$25 a month for life, or until she remar- ries.

No specific instances of such marriages have been brought to light in Waco and the order is looked upon here as precautionary. In any event, before a soldier here can get married he must first con- vince his colonel that it is not a "vampire marriage."

Several privates who married after they were taken into the ser- vice have their wives in Waco and in some instances trouble is anti- cipated when the troops move. The cost of living is so high that it is impossible for them to support them on their pay, and in some instances the women are working in Waco. Steps will be taken to see that they are not stranded here.

The colony of Wisconsin women, almost entirely composed of wives and families of officers, continue to grow and the business of renting furnished rooms has greatly devel- oped with Wacoans. Many families are sleeping in dining room and kitchen, having rented out all their other rooms.—Milwaukee Journal.

A Song for the New Year.

A song for the New Year! Exultant its hours.  
The dust of defeat hath not sullied its flowers.  
But fancy hath dipped them in roseal dew,  
And brought them, all blooming in beau- ty, to you!

A song for the New Year! A clarion strong;  
Achievement through service, refreshment through song!  
No mountain too mighty for faith to re- move;  
No labor too lowly, transfigured by love!

A song for the New Year! A message of joy;  
May never a discord its music alloy!  
But, growing in sweetness and melody clear,  
May it ever inspire and strengthen and cheer!

—Ernest Neal Lyons in Reader.

DIES SUDDENLY

Anton Raulmatis died suddenly from heart failure at his home near McNaughton Monday. He had made that locality his home for several years and was well known. He was a native of Russia and was 37 years of age.

Meaning of "Manger."  
The word signifying "manger" occurs in the New Testament only in connec- tion with the birth of Christ. The word in classical Greek means a crib or feeding trough. According to some commentators it signifies the open courtyard attached to an inn.

## FOOD SURVEY TO BE TAKEN HERE

The stage is rapidly being set for Uncle Sam's first year-end stock-taking job, the making of the nation-wide war emergency food survey, provided for by the last congress. A copy of the schedule, which is a four-page folder of instructions and questions as to existing supplies of food and food materials, has been started by mail to practically every dealer in food-stuffs, every manufacturer of food products, and every holder of foods in more than family lots, in the country. Most of the schedules will be delivered during the first few days after Christmas and should be in the hands of all persons and concerns on the mailing list by January 2, 1918, according to Charles J. Brand, chief of the bureau of markets.

Returns must show the stocks on hand December 31, 1917, and December 31, 1916, and estimates of quantities in transit outward by freight and express December 31, 1917. The schedules provide for answers in regard to 86 items covering more than 100 different foods.

Families, it should be understood will not be required to report the food they have on hand.

## RELEASE ORE CARS FOR COAL

According to the Ironwood Times the Northwestern railroad has released 2,000 cars on the Ashland division for use in carrying coal on other portions of the system. This is in accordance with the policy of the road to aid the government in every way possible in the transportation of necessities. Besides the ore cars, 18 large locomotives used in the ore traffic on this range and 28 switch engines at Ashland, Ironwood, Bessemer and Wakefield have been sent to other divisions to aid in speeding up traffic. Besides the ore cars and engines diverted from the Gogebic range, the Northwestern will also release about 2,000 ore cars and a number of engines

on the peninsula division. As each of the ore cars released are in the best of shape, and are all of steel with a capacity of 100,000 pounds, it will tend to greatly relieve the overburdened traffic in fuel through out the northwest.

## "JACKS" JOIN NAVY

Clifford Fraser, Logan Hines, Herbert Elkey, Walter Dunlap, Fred Dunlap, and Joseph Larney, six husky lumber jacks, left the camp where they were employed, near Long Lake, a few days ago, went to Milwaukee and enlisted in the navy.

The men passed the physical examination with a perfect score. As a general rule navy physicians reject two out of every three applicants, and the fact that all six of the men passed indicates that life in the northern Wisconsin woods makes men healthy.

## LARGE SIZE FOX

Charles Johnson, who lives up the Wisconsin river in the town of Newbold, spends much of his time trapping and the other morning captured a red fox, which measured 35 inches from tip to tip. This is one of the largest foxes ever caught in Oneida county and was exhibited by Mr. Johnson proudly exhibited his prize.

## FRANCE LOOKS TO U. S. SAYS BELLIS

### Former Bundy Doctor Now At Red Cross Headquarters "Over There"

Dr. G. L. Bellis, who was at one time located at Bundy and later became superintendent of the Muir-dale sanatorium, is now at headquarters of the American Red Cross in France. Dr. Bellis has written to friends bespeaking his abhorrence for the devastation and desolation in France. He writes:

"Boys, the hellish prosecution of this war has dipped deeply into the heart of dear old France. On special detail with the tuberculosis division of the Red Cross until my service are requested at the front, I am in daily contact with the starved, half naked, and sick rapatries, fugitives from the devastated regions of northern and eastern France. What heart-sickening tales each group can tell; the pinched look of hunger and despair, and appeal for help with a glimmer of an almost hopeless hope so faintly expressed. Boys, when you see this, it gets you hard. Surely a time and place where simple Esquires may cool the raging fever of many brows. Fellows, they are looking to America with a childlike faith that must not, cannot be denied. Ah! Americans! Americans!

"By the time you will have received this letter my initial hospital capacity of 200 beds will have been filled with tuberculosis rapatries and the work of increasing the capacity to 1,000 or more rapidly proceeding."

The New North for all the news.

## WILL CUT SIZE OF DRAFT BOARDS

Local draft boards are to be cut from seven to five or even three members wherever such action is possible without jeopardizing efficiency.

Provost Marshal General Crowder has suggested that the boards be cut down to three members, but in Wisconsin the matter is being left entirely to the boards themselves.

Major F. A. Fitzpatrick, state draft administrator, has sent a letter to local boards informing them of the suggestion of the provost marshal general, but requesting that the members of the boards make the decision themselves as to which ones give up the work.

He suggested that in communities where there is a great amount of work that it would probably be better to retain five members, but in the smaller counties three members may be sufficient.

It is pointed out that in many instances members of the boards volunteered their services, served with out compensation and at a large personal sacrifice. It was suggested that such men might be relieved of further work.

## BECOMES A SAILOR

Albert Stoddard, son of Mr. and Mrs. George Stoddard, is the latest Rhinelander boy to join the navy. "Allie," as he is familiarly known here, has for the last two years been employed in an automobile factory in Flint. He has passed the examination for the service and on January 2 will begin training in Great Lakes, Ill. He is expected in Rhinelander about January 20 for a visit with his parents.

**FINLAND.**

The new constitution of Finland repeals the constitutions of 1772 and 1790 and all other laws and stipulations opposed to the new constitution. The first four clauses declare that Finland is a republic, a special constitution regulating its relations with Russia, that the legislative power belongs to the landtag and the president of the republic jointly, that the president has the highest legislative power, that he shall have a cabinet and that the judicial power must be exercised by independent tribunals. The constitution guarantees to Finland citizens life, honor, personal liberty, pursuit of happiness and property rights. They are given free choice of residence and traveling within the country. Liberty of speech, of the press and of public meetings is stipulated in general terms. The secrecy of the mails is declared inviolable, and a Finnish citizen is to be judged only by the court of his own district. Before this tribunal he has a right to speak his Finnish or Swedish mother tongue. As to legislation, the right of initiative belongs to the president and the landtag. The president has a veto power, though limited. A bill may be passed over the president's veto by a two-thirds vote of the landtag. Amendments to the constitution must be approved by a two-thirds vote of two consecutive sessions of the landtag. The president is elected for six years, and every citizen has a vote. The president has the power of calling the ordinary landtag, and when necessary, an extraordinary one. He shall open and close landtag, prescribe new elections, dissolve the landtag, issue administrative statutes, and, by right of pardon, abolish or reduce punishment. In time of peace the president is first in command of the army and navy, and appoints representatives to international conferences. All other administrative matters have to be decided by the cabinet and the president jointly. The cabinet includes five members, among them a procurator whose function is to see that the officials do their duty. He has to report violations of the laws to the president, and, if the president does not pay any attention to the same, to the landtag. As to Finland's relations to Russia, the new constitution stipulates that Finland shall be represented in the Russian government by a ministerial state secretary, for translating propositions and communications between the governments of the countries. Military service is made compulsory by the constitution. The constitution accepts the Evangelical Lutheran church as the general church of the Finnish people. The election to the Finnish landtag resulted in the choice of 92 social democrats, 61 representatives of the "civil party," 23 representatives of the agricultural party and 21 representatives of the Swedish party. The most important change from the former elections is the reduction of the social democrats from 103 to 92. The participation in the elections was general among both men and women. It is reported, for instance, that a widow one hundred and four years of age walked nearly a mile to get an opportunity to vote.

Dr. Earl Ignatius, representative of the Finnish government, now in Washington to obtain supplies of wheat and flour for his country, probably will deliver a series of patriotic lectures at Finnish settlements in Minnesota.

Christiania is one of the many Norwegian cities having too few houses in proportion to the population. There is a regular stampede for the office of the local newspaper when it gets out of the press showing what rooms there may be for rent. It is proposed to prevent foreigners from stopping in the city for any length of time.

The great saltpeter factories at Bjaka have increased the population of the community of Tina from 4,600 in 1910 to 11,000 in 1917. A census was taken a short time ago for the purpose of distributing public aid to the community on the basis of the population.

The work of putting up wireless stations is greatly hampered by a lack of materials and men. Some of the stations cost considerable sums of money. The Christiania radio, which is located at Tryvand Hill, is to cost over \$200,000.

Private parties have raised \$250,000 for a new building for the historical and antiquarian museum of Bergen. The property known as Festings Minder has been donated by the municipality as grounds for the new university. The city council of Bergen has also voted \$270,000 as a donation to the university, and the national government will be asked for a similar amount.

Norway has lost 5,000 sailors during the war, a Central News dispatch reports. The sinking of two more steamships is noted in the dispatch.

King Christian received Dr. Maurice F. Egan, the American minister recently. The audience extended over a period of 60 minutes and the inference was gathered that it was highly important.

The price of kerosene has increased from 8 cents to 13 cents a quart since the United States stopped the exportation of that article to Denmark.

The oldest ship in service in the world is said to be the galleon named De Treende Brodre. It was built in 1782. Its present captain is J. C. Boue.

**SWEDEN.**

A union of the Scandinavian countries, including Sweden, Norway, Denmark and Iceland, to be called the United States of Scandinavia, is suggested in the Swedish periodical Statensskaplig Tidskrift. The common affairs of the Scandinavian United States—questions of customs and defense—should be handled by a Scandinavian government, constituted of a cabinet, headed by one of the three Scandinavian kings as president, the periodical electors. The president should be elected for five years by the diets of the four countries, it says. The Scandinavian cabinet would be formed by the foreign ministers of Sweden, Norway and Denmark, to deal with external matters, and by the premier and another minister from each of those countries, to deal with internal matters, together with a special minister in Copenhagen, representing Iceland, the editor says. Each country would have its own ambassadors and consuls in foreign countries as before. Besides the different flags of the countries, the union would have a common flag. A sketch of this flag has already been prepared by the Swedish artist, Carl Milles.

It is three years since the name of Gustaf Fredriksson, the actor, appeared on a theater program. This was taken to mean that the veteran from the old Dramatiska Teatern of Stockholm would never appear on the stage again. This supposition was well founded, for the man is eighty-five years old. Last spring it was rumored that the veteran would appear in a star performance. He denied it himself. He had no plans to reappear on the boards. But in spite of everything it turned out that Dame Rumor was properly informed. Gustaf Fredriksson did show up at Intima Teatern in "Folke's Undermynter." Evening after evening he played the main part in this drama, and those who have seen and heard him declare that he never appeared more "youthful" and vigorous than now. His performance is still that of the master, and though his role keeps him on the stage almost half of the time during the evening there is neither hitch nor flaw in his work. At the same time the patriarch among Swedish actors admits that he has about forty other casts so well in hand that he can play any one of them if he is permitted to spend a day or two reviewing the play.

As a result of the embargo against northern European neutrals, exports to those countries from the United States last October totaled only \$7,772,836 compared with \$30,885,721 in October, 1916. Figures made public by the bureau of foreign and domestic commerce at Washington, show that not a dollar's worth of goods was exported during the month to Sweden, with which country the no-war trade agreement has been reached.

Preparations are being made in Sweden to electrify the whole canal system of the country stretching from the eastern to the western coast and connecting the Baltic sea with the North sea. The electricity will be derived from water power. The aim is not only to run the lockage machinery with electric power but also to apply it to the vessels and steamers. The project is of great importance now on account of the scarcity of coal.

Swedish capitalists have bought so many shares in Finnish steamship companies the Danish press has seen fit to call the attention of the public to the transactions. A majority of the stocks of the Denmark Steamship company is already in the hands of Swedes, the deal involving about \$1,700,000. The Berlinische Tidende, Copenhagen, has given expression to the fear that the stock sold to Swedes may pass into the hands of mere speculators.

A Stockholm newspaper recently contained the following characteristic announcement: "Is there a wagon-maker or a polish factory that is willing to sell a few pounds of butter (raw material) to a housekeeper? An answer is thankfully awaited under the picture marked \$1.00 per pound."

The names of a railway station close to the Norwegian boundary in Venland has been changed from Amot to Amot-Gars.

The land-keeping commission of Stockholm has started a comprehensive movement for the preparation of fruit marmalade as a substitute for butter. Those who are in charge of the work do not expect to be able to induce the masses to give up their butter for marmalade. The immediate aim, therefore, is to have the substitute go to the army, hospitals, and other public institutions. The commission bought 150 tons of apples, which the chocolate and candy factories will have to turn into marmalade.

## BOYS AT WACO GET MANY GIFTS

(Continued from first page)

Kid days will be all shot to pieces. I am letting him run loose without a halter for the short time we will have together.

The boys from home received about a truck load of Xmas presents yesterday and as the railroads are running a through car from Wisconsin for that purpose only, they came in good condition. The men are in good spirits, but serious, for they all realize what they are up against.

I think it better to ring off on this kind of lingo, so give my best wishes and greetings of the season to all the bunch around the hall, including the Mayor and the council, and if you have some poor "bo" down in the basement (trailer) give it to him also.

Good bye and good luck old horse.

Yours etc.,  
A. J. LYLE.

### Lost in One's Own Room.

Most of us have been lost at some time or other in our own bedroom. There is no more panicky feeling than to get up half awake and find yourself stumbling over chairs and tables, than to realize that you are lost and start off again only to meet new chairs and angles. Nervous or sick persons are subject to hysteria in such a case. The psychologist has found that a moment's calm consideration will set the lost one straight, but says that it is best in all such cases to call out and secure aid rather than to get another bump.

### Keep Mouth Closed.

The mouth is the gateway to the body, for health or disease. It was designed for speaking, eating and drinking, but never for breathing, except in emergency. Acquire the habit of keeping the lips closed, shutting out dust and dirt which irritate and often carry the germs of disease. Most diseases are taken in through the mouth.

### Courage.

Courage is not simply the absence of fear. To be brave is not merely not to be afraid. Courage is that compactness and clear endurance of all a man's faculties and powers which makes him march an operative unit in the world.

## CROP PRICES AND DOLLAR VALUES

Commodity Prices Are High, but Crops Are Higher—The Dollar Is Cheap.

When is a dollar not a dollar? Relative values shift so rapidly these days that a dollar has no definite value. It is merely a question of how much of the commodity you want, you can get for the commodity you have to exchange—whether that commodity be labor, live stock, corn or wheat.

A bushel of corn will buy more fertilizer now than it would in 1914. Every purchase must be considered on the basis of relative values rather than dollar values.

The high quotations for spring fertilizers have caused many farmers to ask whether it will be possible to use fertilizers at a profit next season. The answer to this question may be found by a comparison of the relative purchasing power of crops before the war and at the present time.

In 1914 the usual corn fertilizer cost \$21 per ton. Today the same fertilizer costs around \$32 per ton—an increase of 50 per cent. In 1914 corn was worth about 60 cents per bushel, taking the country over. Today it sells at not less than \$1.20 per bushel, on the farm—more than 100 per cent increase.

The same calculation could be made for wheat, potatoes, or almost any other crop (excepting in the case of those fertilizers containing potash).

Each individual farmer has merely to consider whether fertilizers paid before the war; if so they will pay even better now.

### WHY FERTILIZER PRICES HAVE ADVANCED.

Cannon and crops use the same food. Six hundred thousand tons of nitrates went to make explosives last year, in the United States alone.

Sulphuric acid necessary for the manufacture of acid phosphate is normally made from Spanish sulphur ores. Submarines have now almost entirely cut off this supply.

Brimstone, used as a substitute source of sulphur, must be transported by rail at great expense from Louisiana and Texas, since the government has found it necessary to commandeer sulphur-carrying boats.

Large quantities of phosphate rock from Florida and Tennessee must now go by rail at high freight rates. Uncle Sam needs the boats.

Higher labor, machinery, coal and supply costs have caused a general advance in all raw materials, varying from 25 to 100 per cent.

Burlap bags which normally cost 10 cents each, now cost 25 cents and are scarce at that.

Labor which was plentiful in 1914 at \$2.00 per day is now almost unobtainable at \$3.50 per day.

There can be but one answer to conditions such as these; namely, high-priced fertilizers.

### WHAT CAUSED FOOD SHORTAGE?

Herbert Hoover, U. S. Food Administrator, says there have been two principal reasons to account for the present food shortage. First, the "unkindness of nature," including the late spring, droughts, hurricanes, poor conditions of rainfall, unexpected frosts and periods of intense heat in sections throughout the world.

Second, he gives "reduced productivity of the soil in Europe." Concerning this, Hoover says: "This condition has been brought about by bad management, unskilled work, and lack of fertilizers; and these in turn can be explained by the withdrawal of men from farm and field to army and factory, and the employment on the soil of overworked women, unskilled old men and listless prisoners. Furthermore the vicious submarine has sunk boat after boat filled with nitrates and fertilizers, conspiring to augment the pauperization of the earth, so that reduction in soil productivity was inevitable."

### ARMIES ARE NEEDED AT HOME.

If this war is to be won, we shall have to put several armies in the field, the army of soldiers in the trenches, the army of food producers in the furrows, the women's army of food conservers, beating back the attacks of that world-old camp follower of war—famine, and a patriotic army of civilians in the business and political world. — The Banker-Farmer, Oct., 1917.

### FARMERS AND THE WORLD WAR.

The farmer's tools of production in wartime become of importance second only to the needs of the army itself. Food production is a patriotic duty, and the farmer is in the second line of defense. Every effort is needed to increase production, to feed our armies and allies. Food prices are forced higher because the demand is increased greatly and the supply is limited.

### Training Sea-Lions.

The nature of the sea-lion is peculiar. He has to be petted and encouraged at every stage of a lesson. The trainer knows that the animal is very jealous of others who get too much of the limelight; quarrels among a troupe frequently follow. If a sea-lion is not in his proper position the act will not work. But most important of all, it is necessary to keep repeating a trick until a sea dog performs it readily. How long this sometimes takes only the young men who do this work can tell.

### Area of Surface of the Earth.

The superficial area of surface of the earth is estimated to be 193,797,000 square miles, of which 55,000,000 square miles are land and 141,000,000 square miles water. Of the entire land surface the last estimate places the land surface at 29,000,000 square miles; unproductive plains, 14,000,000 square miles; deserts, 4,500,000 square miles; four regions of 10,000 land and water, 6,000,000 square miles.

### For Blowing Soap Bubbles.

A recent invention has made the blowing of soap bubbles as safe and sanitary as drinking pasteurized milk. No longer need the youngster steal the soap from the laundry for his bubbles. Instead he uses tiny paper tubes purchased from the nearest drug store. These tubes contain a small piece of sterilized soap at one end. The tube is dipped in a glass of clear water. Nor is there any danger of the child's cutting himself on a broken pipe, as the tube is so constructed that it collapses under pressure.

### Had Good Imagination.

Edward had a new little playmate who possessed much more imagination than he. To John a chair was a chair only occasionally. It in turn became a stool, or, armed with two yardsticks for ears, it proved to be a boat. Blocks turned quickly into various kinds of animals, etc. When Edward returned home after his first visit his mother asked him how he liked his new little playmate, and Edward replied: "Oh, he is fine. He has such a good tendency."

### Would Connect Seas.

A new project of American engineers is a giant canal 250 miles long to connect the Arctic ocean and the Baltic sea, extending from Kandalaksha, on the White sea, to Tornea, near the Swedish frontier on the Gulf of Finland. The cost is estimated at \$170,000,000.

### GET LICENSE TO WED

A marriage license has been issued by County Clerk J. J. Verage to Mr. George Gleason and Miss Ruby Jennings, two popular young folks of Rhinelander.

### Hard to Think of Words.

Inability to choose the right word often places a speaker in an embarrassing position. Many business men lose much valuable time because they find it difficult to express what they want to say when they dictate their correspondence. Greater freedom and accuracy in speaking and writing can be acquired by studying a dictionary. A few minutes devoted to the study of words and their meaning each day will in a short time result in great benefit to anyone who will put that practice to a test.

### Legs Didn't Meet.

Dickie was out playing on a damp, cold morning dressed in a thin suit and short socks. Later he entered the house vainly trying to pull his little trouser leg down to reach his sock, and said to his mother: "Dickie's all warm, mamma, 'cept where his legs don't meet."

### Trees When They Grow.

The very essence and as it were, spring-board of origins of all music is the very pleasant sound which the trees make when they grow.—Old English Tale.
